El Brogit de la Vall

Itinerary along the Brugent Valley

La foto de la portada és de Josep M. Toset

El Brogit de la Vall is a circular four-stage itinerary along the Brugent River Valley, located in the midst of Muntanyes de Prades (Prades Mountains). The itinerary follows the course of the river, from its source in the village of Capafonts to its mouth at the river Francolí, by the village of La Riba. Throughout the trail, the hiker will walk along the several river stretches, not only from above but also near its course, and will discover the natural and cultural values associated with one of the best preserved rivers in Catalonia!

The stages conclude at three mountain huts and one hostel. You can only take part in this adventure using the accommodation booking service that will handle the bookings and will provide you with the map, the through ticket and the necessary equipment to make your hike the most comfortable.

The name **El Brogit de la Vall** stems from the river itself, El Brugent, which is the actual artery and common thread of this four-day route along its valley. The itinerary covers nearly seventy kilometers of paths, three counties, a valley, and a whole world to discover!

MODES

Trescamons: it is the most common option, suitable for all walkers. The route can be done at your own pace, sleeping 1, 2, 3 or 4 nights in the accommodations in this itinerary. This mode allows trekkers to enjoy the route at their own pace.

Almogàver: this mode is only appropriate for the most expert walkers, whose challenge will be to walk nearly 70 km in the minimum time possible. This option combines the discovery of the Brugent Valley with an extremely highly demanding physical activity.

DeLuxe: conceived for those seeking to combine hiking and relaxing, it supplements the **Trescamons** mode with a stay of several nights in an accommodation of the Brugent Valley. It is a good way to finish the adventure experience in the Brugent Valley in a luxurious environment and landscape.
